

First to 180°

How to Prepare the Game:

1. **Print and Laminate:** Print and laminate a game board (page 2) for each player.
2. **Prepare the Spinner:** Print page 3 and attach a spinner, or use a paper clip and pencil as a makeshift spinner.
3. **Prepare the Arrows:** Print page 4, cut out the arrows, and laminate them. Attach the arrows to the protractor on the game board (page 2) using a split pin.
4. **Set Up for Play:** The game can be played with a partner or in small groups.

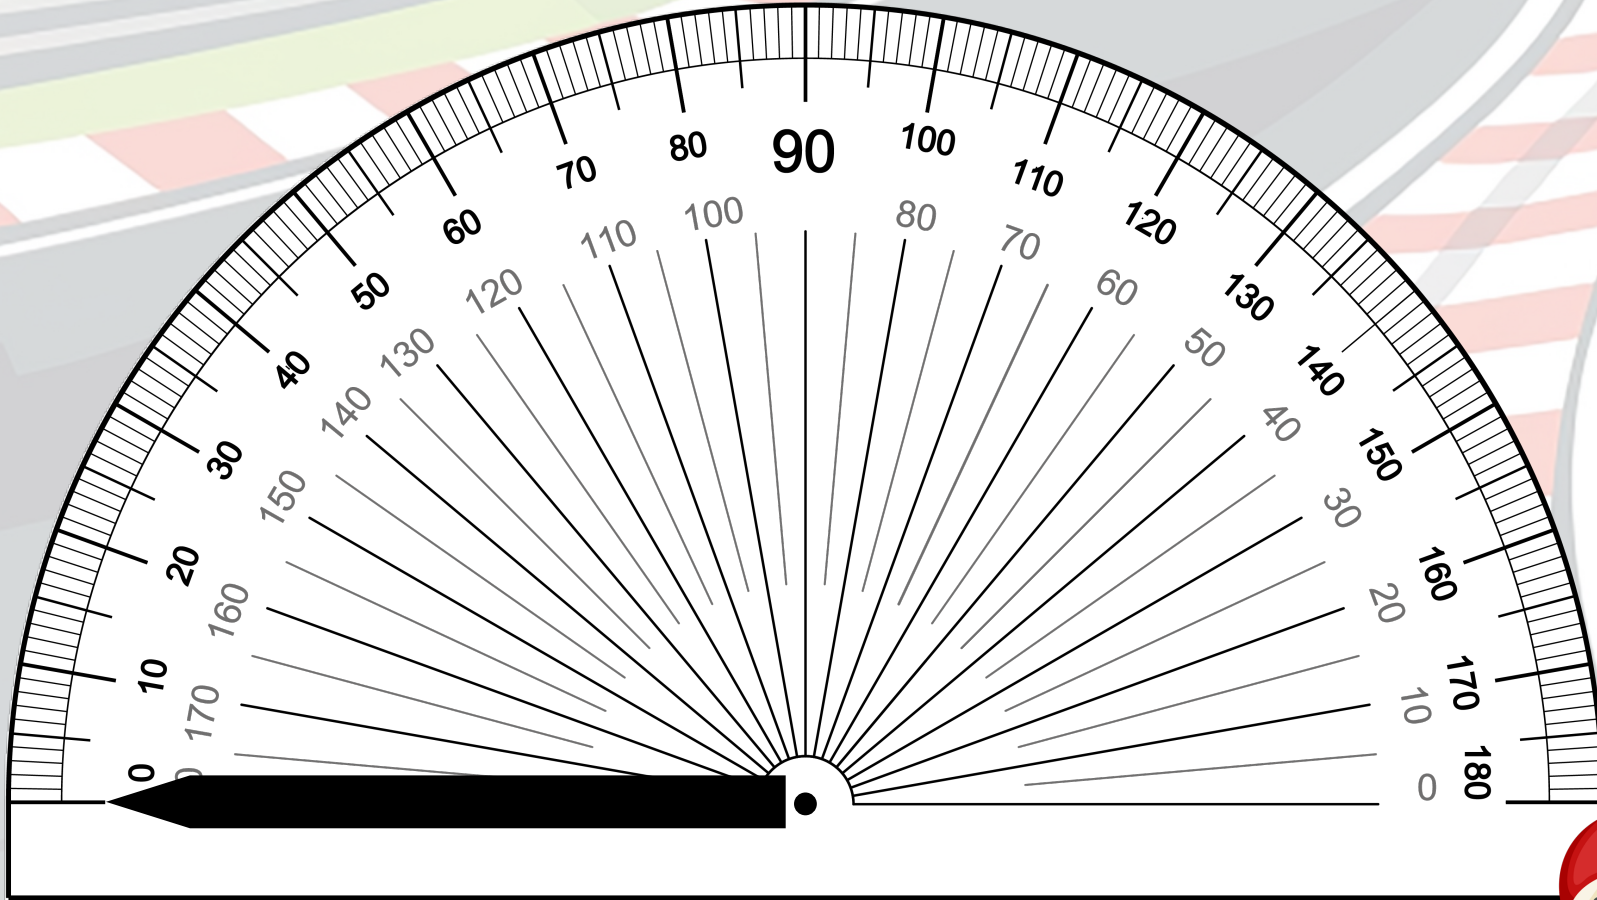

Game Play:

1. **Distribute Game Boards:** Each player receives a game board (page 2) with an arrow attached using a split pin.
2. **Starting Position:** Begin with the arrow pointing to 0°.
3. **Spin and Move:** Players take turns spinning the spinner and move their arrow the number of degrees indicated on the protractor.
4. **Winning the Game:** The first player to reach exactly 180° is the winner.

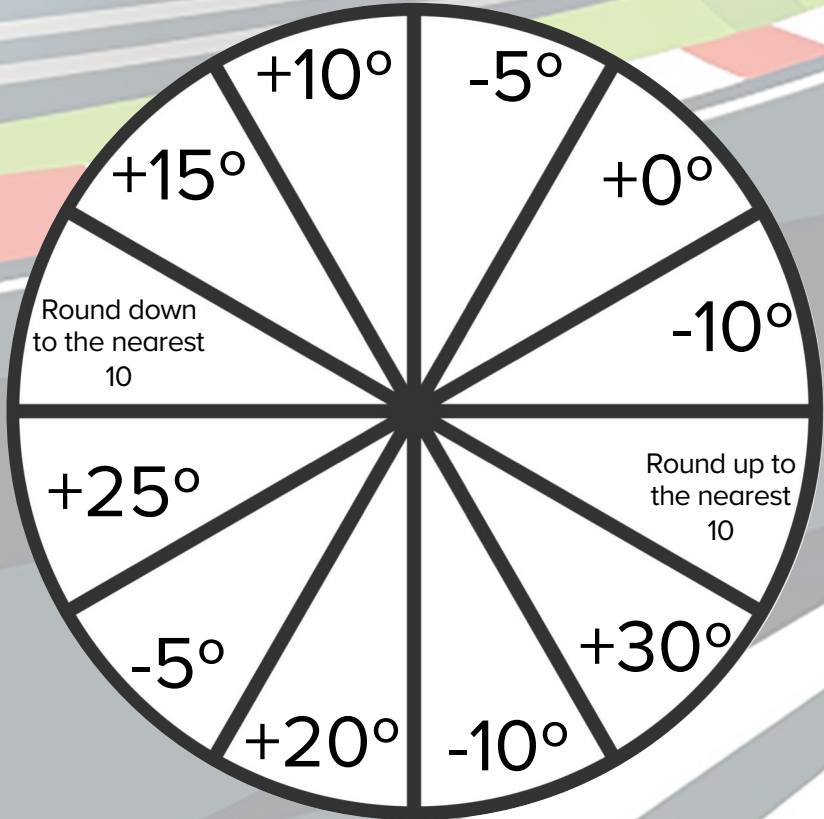

First to 180°

Start the game with the arrow pointing to 0°. Spin the wheel and move the arrow that many degrees on the protractor. The first player to reach 180° is the winner.
