

Subtracting Past Zero on a Number Line

$1 - 2 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$5 - 11 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$3 - 7 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$6 - 13 = \square$

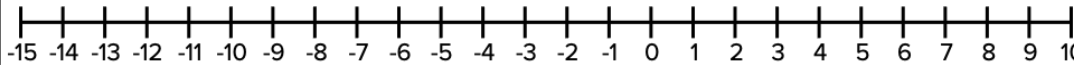

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$4 - 8 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$7 - 12 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$10 - 6 = \square$

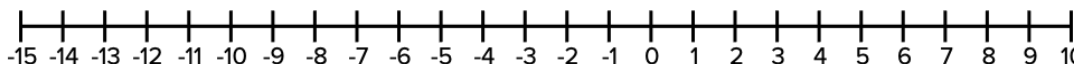

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$5 - 12 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$3 - 9 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$8 - 18 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$2 - 11 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.

$3 - 6 = \square$

A horizontal number line with tick marks and labels from -15 to 10. The zero is in the center.
