

DON'T BE LAST

Choose a target number up to 30. Take in turns putting counters in the 10s frame. Players can put in 1, 2 or 3 counters down during their turn. When putting the counters down continue to count on by saying the next 1, 2 or 3 numbers out loud. The winner of the game is the person who **does not** say the target number. Try playing forward and backward.
