

# Make a Time

- Print out pages 2 – 4 on card. Laminate page 2 and 4.
- Attach the hour and minute hand to the analogue clock on page 2 using a split pin.
- Attach 2 spinning wheels to page 3.
- Spin the 2 wheels to make a time.
- Move the hands on the analogue clock to make the given time.
- Use a dry erase marker to colour in the parts of the digital clock numbers to make the given time.
- Use dry erase markers to write the time in words, for example quarter to 4.

# Make a Time

Spin the wheels to make a time. Display the time on the analogue and digital clock and write the time in words, for example quarter past 3.

Write the time in words
