

Long i, silent e

When 'e' is added to the end of some **short i** words, it gives those words a **long i** sound. For example rip becomes ripe.

Write the long i words. Draw pictures for both the short a and long i words.

<i>Short 'i' word</i>	<i>Picture</i>	<i>Add e</i>	<i>Long i word</i>	<i>Picture</i>
<i>rip</i>		<i>+ e =</i>		
<i>fin</i>		<i>+ e =</i>		
<i>rid</i>		<i>+ e =</i>		
<i>hid</i>		<i>+ e =</i>		
<i>pin</i>		<i>+ e =</i>		
<i>bit</i>		<i>+ e =</i>		
<i>shin</i>		<i>+ e =</i>		

Can you think of any more i_e words? Write as many as you can below.
